

Valéron Vortec™
Fast Facts
www.valeronvortec.com

- Valéron Vortec is the premier water-resistive barrier that incorporates a patent-pending pattern of multi-directional channels to promote drainage, thereby reducing the chance of mold, mildew and frame rot.
- Valéron Vortec is a flexible plastic film, micro-perforated and engineered using Valéron's patent-pending EVD technology.
- Valéron Vortec is manufactured by Valéron Strength Films, a worldwide leader in high-strength and specialty film, packaging applications and moisture management solutions for more than 35 years.
- Vortec is not only tear, snag, and puncture resistant, but also lightweight and translucent making it easy to handle for quick installs.
- Launched in 2005, Vortec is Valéron Strength Films' first direct-to-user, in-house brand.
- Vortec is available in industry standard 60" widths for 1,000 square feet of coverage.
- Valéron® Strength Film can be found in quality building products manufactured by industry-leading companies; including roof underlayment, flexible flashing, commercial air barriers, vertical drain membranes and radiant barriers.
- Valéron Strength Films is a Division of Illinois Tool Works Inc. (NYSE : ITW,) a Fortune 200 company based in Glenview, IL with net sales of \$12.9 billion USD and more than 50,000 employees worldwide.
